IV.   INTERNATIONAL PROGRAMS and SERVICES

-related
projects to El Salvador, Honduras and Haiti, would be suspended in summer 2016 and fall 2016.   The Group has been in contact with a number of other US Jesuit Universities and has been monitoring various reports on these countries, including our insurance
from the US Department of State notices (OSAC). The decision is based on the high level of violence in these countries and the
Faculty who were hoping to continue their projects will have an opportunity to request a meeting with the Group to discuss the matter further. Please be aware that there is movement to identify alternate sites for student-faculty courses and service projects.
